8. MASTER OF THE DALAI LAMA: H.H. SLEEP YOGA DHARMA KING MINDROLLING TRICHEN OF THE NYINGMA SECT

The group of Mindrolling monasteries is one of the six main groups of monasteries within the Nyingma sect. The Mindrolling Monastery was the first monastery where Direct Transmission and Mind Transmission were combined, where old translations of sutras and treatises from all over the world were collected, where uncovered dharma treasures from the south of Tibet were collected, and where historians of the Nyingma sect gathered. It is therefore the monastery that most completely embodies the totality of the Nyingma sect. It is responsible for reviewing and making final decisions on the dharma books and the history of the Nyingma sect. Even today the Mindrolling monasteries still serve as models for all of the large and small monasteries of the Nyingma sect to emulate.

We are very appreciative of having received the book "Treasury of True Buddha Dharma" from the International Buddhism Sangha Association.

The publisher has composed and published the book "Treasury of True Buddha Dharma" recounting the accomplishments of H.H. Wan Ko Yeshe Norbu Dorje Chang with the aspiration that, the Buddha Dharma flourishes in these degenerated times and that the minds of all beings are filled with Bodhicitta. By this book, H.H. Wan Ko Yeshe Norbu Dorje Chang brings good fortune and wisdom to all living beings.

H.H. Mindrolling Trichen and the Mindrolling Sangha believe that, this noble book brings great benefit to all sentient beings.
